### **Nathalie Roth** **Expert Support Unit**

Nathalie Roth is the BNCFF Senior Advisor for environmental and international carbon markets, climate finance, valuation of climate change impacts and sustainable development benefits and its integration into the financial structuring of the projects. Nathalie has over eighteen years of professional experience in the environment and finance sector including insurance, banking, environmental finance ratings, greenhouse gas brokerage.

Nathalie Roth has acquired a strong track record in working with private sector and government in developing carbon purchase and carbon management strategies and policies, including the implementation of the carbon procurement plans, due diligence of projects, contract negotiations and portfolio monitoring.

Her work at the BNCFF will entail assessing and strengthening the climate revenue streams through potential monetizing climate mitigation outcomes. Her work will also seek to translate the resilience and climate adaptation benefits of BNCFF into the business plans and the financing structure of the projects. Nathalie will provide early guidance to project developers and financiers to ensure that the BNCFF projects generate the robust monitoring and reporting data required by relevant climate market mechanisms and climate financing instruments.

Nathalie holds a master degree in Environmental Science from the Swiss Federal Institute of Technology (ETH) and has earned, as a Fulbright Grantee, a Master Degree in International Affairs from Columbia University in New York, with a focus on finance and banking. She is fluent in English, German, French and Luxembourgish.
