Moritz von Unger **Expert Support Unit**

Moritz von Unger is the BNCFF Senior Advisor who will support BNCFF projects with transaction and technical guidance related to coastal nature-based interventions as well as small-scale renewable energy and clean water solutions. His expertise will support BNCFF's readiness to access sustainable financing.

Moritz von Unger, principal at US-based Silvestrum Climate Associates LLC and founder of Europe-based Atlas Environmental Law Advisory, is a senior climate change expert with more than fifteen years of professional experience as an international advisor of governments, business and notfor-profit institutions.

He specializes in international environment and climate interventions, with a special focus on land tenure policies, finance and the institutional management of low carbon investments in forests, coasts, wetlands and landscape approaches. He has extensive experience in assisting the private sector and governments with land-use based interventions, participatory processes, and institutional country climate transformations.

He works both top-down focusing on policy designs, the interaction of national agencies with communities, investors and civil society, and bottom-up focusing on community involvement, program efficiency, revenue distribution and re-investment schemes.

Moritz holds a PhD in international law from the University of Hamburg (Germany) and teaches and publishes regularly. He is fluent English, French and Spanish alongside his native German.
